

Small Turnout Marks 1st Library Election

Little public interest was shown in the first board election in the life of the Mokena District Library, which was established by referendum in August, 1966. The first board was appointed by Circuit Judge Michael Orenic with the members to serve until this spring when an entire board of six members was to be elected.

The election was held on Tuesday, April 9, with a total of 63 votes cast. There were eight candidates -- who had been prevailed upon to run as a civic duty -- and six were elected.

Unofficial returns:
Marcella Lehmann50
Gordon Holleman48
Rita Schilling43
Helen Sippel39
Clarence Miller36
Kathleen O'Hara35
June Fant33
Ann Haislet31

The top six will make up the board, which is to be organized this week. Clarence Miller, who will serve on the new board, was the only one of the original board to run.

The new members were scheduled to draw lots for terms. Two will serve two years, two four, and two the full six-year terms. Thus, two members will be elected every two years, beginning in 1970, for six-year terms.

Members of the original board who are retiring are, Mrs. Lewis Richards, Joseph Bernardin, George E. Sangmeister, Mrs. John Hansen and Walter Welsch.

Bond Issues, Tax Hike, win Approval

Mokena Grade School Dist. 159 can now proceed with the purchase of a site for a new school adjoining its Willowcrest property. The voters gave approval to the school board's building program at the regular school election last Saturday. Another bond issue and a tax hike also won approval.

This was the third time the Mokena board asked the voters for approval of a site purchase. On the other occasions the voters said "No" but had a change of heart this time. Money for the site is included in the \$250,000 bond issue that was approved by a vote of 313 to 211.

The board hopes to buy approximately 21 acres to the north and east of the Willowcrest site. The bond issue had the backing of the lay board of St. Mary school.

The Mokena grade board plans to build a two-story structure that will house eight rooms, four to six of which will be finished with the others to be completed when necessary and borrowing power permits.

The building will be planned so it can be enlarged with a minimum of changes and cost.

The board plans to dispose of the bond issue approved Saturday over a two year period.

The board also plans some remodeling and repairs at Carpenter Street School. The playground, restrooms, gym floor, and boiler are on the list for repairs or replacement.

Three candidates vied for the two seats on the Mokena

board of education, Willard Barenz, Edwin Yunker (incumbents) and James Quinn. The incumbents were re-elected. The returns: Barenz, 373; Yunker, 325; Quinn, 274.

A bond issue for \$410,000 also passed in Manhattan and in the Ann Rutledge district, Lincoln Estates, voters approved a 21-cent increase in the educational tax fund rate, raising it from \$1.11 to \$1.32 per \$100 equalized assessed valuation.

The tax rate hike was approved 116 to 77, but there was a tie in the board election. Two candidates were to be elected. There were four

running. Mrs. Joyce Bluth led with 107 votes. Don Schofield, the only incumbent running, polled 96 votes, and so did Eddie Fields. The other candidate, Robert White, received 73 votes.

Schofield and Fields were to have drawn lots at the meeting of the school board last night to determine who is the winner.

Manhattan Grade Dist. 114 had a bond issue of \$410,000 approved by a vote of 203 to 102. Two board members were elected, Luther Price and Robert Runty. They had no opposition.

Charles (Flip) Elliott and A.J. Turner, incumbents, ran an even heat in their re-election to the New Lenox Grade School board. Each polled 62 votes. They were without opposition.

Also without opposition were the two incumbents re-elected to the Frankfort Grade School board, Kenneth Oetter and Dale Kratzenberg. Oetter had 43 votes, Kratzenberg, 37.

Three were elected at Arbury Hills, Donald Munday, Herbert J. Newmayer, incumbents, and Mrs. Gladys Payton.

Incumbents on the Lincoln-Way High School board also were re-elected, without opposition. Mrs. Beatrice Link, of Lincoln Estates, polled 833 votes and Joseph Gregg, Manhattan, 834.

Taking them by precinct the unofficial returns show Gregg had 42 and Link, 41 votes at Frankfort; at Mokena it was Gregg 305 and Link 319; at New Lenox it was 53 Gregg 56 Link; Gregg has 22 and Link 23 at Arbury Hills, and at Manhattan it was Gregg 261, Link 223. Lincoln Estates voters gave Gregg 151 and Mrs. Link 171.

Scout Pack 237 Meet; Receive Badges, Arrows

Mrs. Emil Wille
Telephone: 469-5277

Cub Scout pack No. 237 held their pack meeting Friday evening, March 29 at St. Anthony's church. The opening was by den 1 with Mrs. Jack McCarter. Wendell Wilson received his wolf badge and a gold arrow. Ty Iles and Roger Cooper each received the wolf badge. These three boys move their clip up to the wolf rung. John Bluth, Raymond Hummel and Steven Griggs each received a silver arrow. Keith Peipenbrink received two silver arrows. Larry Joyce, Steven Griggs and Kent Coburn have been in our pack two years and received their two year service stars. Michael Wolcott received his one year service star. Steve Anderson and Kent Coburn will be starting in the Webelos den in April. Franklin Zimmerman started in the Webelos den in September. He is the first Webelos scout to complete all of the requirements for a merit pin. He has completed the travel award.

These committee members have been with us from one to four years and have earned the following service stars. Mrs. Roy Robertson, 2 years, Mrs. Henrietta Rey-

nolds 1 year, Mr. Roy Robertson 1 year, Mr. Ralph Bidne 4 years, Mr. Ed Nicholson 4 years, Mr. Lee Gericke 4 years and Mr. Wm. Lovelock 2 years. Mr. Lovelock is leaving our pack this month. We would like to take this opportunity to thank him for his fine work as registration man in our pack for the past two years. He was presented with his thank you certificate.

Pack No. 237 has been re-registered as of March 28 with 23 boys. Boys Life magazine has been ordered for all families for one year. Our new registration man is Eddie Fields and our new den mothers starting in September will be Mrs. Lowell Zimmerman and Mrs. Elwood Zitter. We will also have a new publicity man starting in September but it isn't definite who it will be.

Ralph Bidne has agreed to take the job of committee chairman and Webelos scout leader but he needs help. He can not do it alone and we need an interested father or brother to attend the den meetings and to help plan things for the Webelos to do at the meetings. The Webelos have changed a lot since our pack was started. The Lion rank is put and the boys work

for merit pins instead. They should have camp outs, hikes and visit places that have to do with the pin they are trying to earn. The Webelos should prepare the boy for the boy scouts so he will be able to cope with camping trips, build camp fires and how to take long hikes.

The attendance award was won by Mrs. Jack McCarters den 1 and the Webelos den. Games were by den 2 with Mrs. Roy Robertson. The skit was by the Webelos den with Mr. Ralph Bidne. Refreshments were by den 3 with Mrs. Earl Piepenbrink.

The jr. girl scout troop No. 378 will hold a meeting at the home of Mrs. Lee Gericke on Tuesday, April 23 to discuss and plan an overnight campout. They will go on a bicycle hike on April 27. This Machine Is A Gym In Itself

A weightlifting machine where ten students can build their individual skills at the same time has been installed in a classroom at Sandburg High School.

The apparatus is called the "universal Hercules gym" and is a gift from the Eagles' Boosters Club. "We want to thank the Boosters Club for the machine," athletic director Joe Devine said. "It will be utilized to maximum advantage in the physical education program by rotating classes, just as we rotate classes in using the swimming pool," he added.

The machine dominates the Eagle weight training room, an ordinary classroom that previously held a few barbells and other equipment for boys who wanted to work out. Now there are 13 stations in the room, 10 on the machine, so a full P.E. class of 39 students in double rotation can be kept busy in body building exercise in a minimum amount of space.

Each weightlifter can adjust the weights to his individual needs as he works at his station on the \$2400 machine. The student can press, bench press, and perform eight other weightlifting tasks. Students are enthusiastic about the machine because weights can be adjusted quickly which gives the student more time to get through his workout.

The machine will be a tremendous asset to the summer recreation program and can also be used in adult

education, by the faculty, and by both boys and girls after school in the weight training program, when the football coaching staff donates their time to supervise.

This type of machine is used extensively by women physical education instructors in California, Devine said. They use the machine to pursue a program called "contour development." Among the experimental uses the machine is engaged in at Sandburg is contour development by some girls' PE students.

Open Letter from the HIRSCHS'

Dear friends,

Our clergymen and our teachers strive devotedly to build honesty, fairness, kindness and personal worth into the character of our children. Their efforts will be in vain unless we parents and citizens support them with ethical and moral behavior in our daily lives.

Our nation's moral fibre has been laboriously built thru the integrity of generations - it can rapidly falter and fail unless we maintain high standards of conduct.

Respectfully,

Workshop Set For New School Boards

Newly elected school board members will have an opportunity to gain an insight into their duties at a workshop at Rich Central High School, 203d St. and U.S. 54, Olympia Fields, on April 30. It will begin with a dinner at 6 o'clock.

The workshop is sponsored by the Illinois Association of School Boards.

One of two in Cook County and the only one of its kind in the South Suburban area, the workshop is designed to provide an "as it is" type of information to new board members from experienced board members and IASB personnel.

It was explained that the first year of school board membership is largely spent in learning the responsibilities of the office and the many faceted, complex details of school administration and finance.

Those backing the workshop believe it will serve to reduce "learning time" and increase the effectiveness of new members. Old members are welcome too for a

refresher course.

Four presentations are scheduled for the evening following dinner. The sessions are entitled: "To Be A Good Member"; "Board-Administrator-Staff Relationships"; "A Good Board Meeting"; and "Money For Your Schools".

Hints For Homeowner

By: Richard DeLano
Cook County Associate
Extension Adviser
Horticulture

Now that the frost is out of the ground, tree and shrub planting season should soon be in full swing, and this means that we should take special precautions to plant only the very best of trees and shrubs.

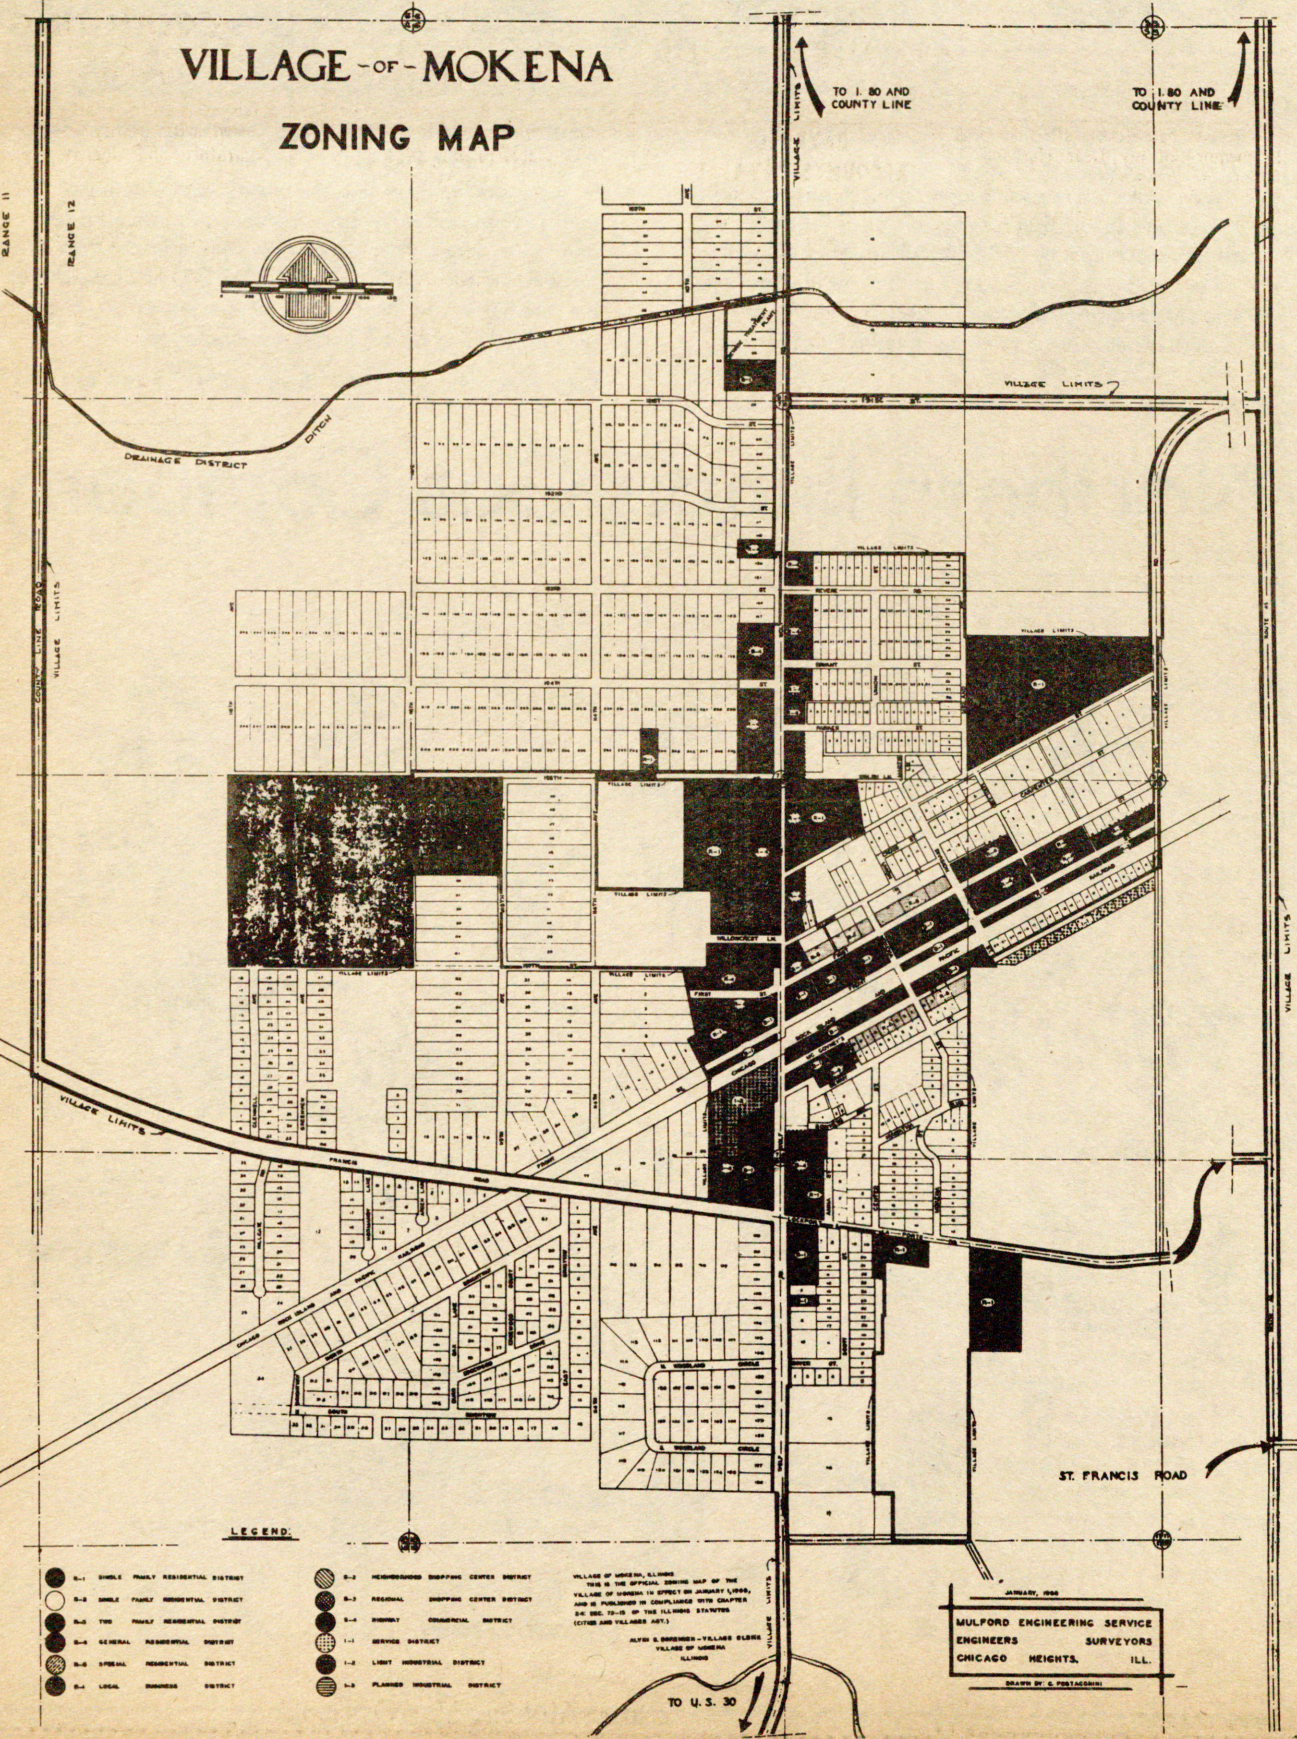

Crown gall is a blight that can very well cause the loss of shrubs and fruit trees. It is more prevalent in cases where plants are traded with neighbors or moved from one area in the garden to another. The first step in avoiding Crown Gall is to carefully inspect all plants before planting. Plants which have bumps or swelling near the crown, graft union, or on roots, should be rejected. Roses, brambles and many ornamental plants are susceptible to this disease and should be destroyed rather than planted.

Interestingly enough, Crown Gall is caused by bacteria rather than fungus. This bacteria enters the plant through wounds made from grafting or hoeing or careless planting. After the bacteria enters the plant, they secrete a substance which makes the plant cells grow wildly. In some cases this results in a gall or tumor and resembles a cancer in plants.

Although the galls are usually, but not always, located below the ground you can recognize it above ground from the gradual decline of the plant, or by a generally poor growth. A Crown Gall infected plant may appear to need fertilizer, but close examination may reveal galls at or near the soil line, at the graft union or on the roots. The galls are rough-surfaced, hard or soft, may be spongy and may be flesh-colored to dark and may vary in sizes from that of a pea to several inches in diameter. The usual size, however, is that of a golf ball.

The amount of infection determines the effect of Crown Gall in a plant as well as the variety of the plant involved. Many, but not all of the plants infected will die. Although the best control is to avoid planting or transplanting Crown Gall infested plants, there are other means to control this problem. Avoid the use of soil where Crown Gall has been known to exist during the previous three years. The use of fumigants to destroy bacteria in the soil is advocated by some, but evidence shows that fumigants do not always eradicate the bacteria and prevent the recurrence of the disease when susceptible plants are replanted in such soil.

Removing the plant parts along with the Galls and any nearby infested soil will help with control, provided that this includes all infested soil that roots would reach or contact within the next few years. Although it is not practical in the home garden, heat is the only agent that can be depended upon to eradicate the bacteria. Fumigants are not always effective. Interestingly enough, the disease is less severe on acid soils. Thus you may notice the problem would be more prevalent in areas that are continually limed.
